

Lumine Japan to exhibit extraordinary health drink at expo

Borneo Post 22/5/2011

KUCHING: Lumine® Japan, offering premium quality health and beauty care products that have been proven to be high in benefits and values, is joining as an exhibitor in the upcoming Sarawak Health, Wellness, Beauty and Halal Expo 2011.

According to a press statement, the company produces the only health functional drink in the world that makes one feels and looks healthier and actually biologically younger.

Lumine, in just 12 months, can be found in more than 20 major cities around the world, in countries such as Japan, Malaysia, Singapore and Indonesia, to name only a few.

Started off as a small genome research lab in 1990, Lumine experimented

with plant cell-activated anti-oxidants called Anthocyanins. Having been successful in understanding the properties, extracting and activating the super phyto-anti-oxidants, the Osaka-based laboratory went

global after a successful joint venture between 2 companies in Japan and Singapore in 2006.

Those interested to know more about Lumine range of products and services should visit the expo on June 10-12

at Permata Exhibition Hall here.

Eagle Interactive Sdn Bhd organises the three-day expo.
